Catalyzing sustainability of the wetland protected area system in Belarusian Polesie through increased management efficiency and realigned land use practices 00048429	Belarus	04/2006-04/2011	To catalyze sustainability and effectiveness of Belarus' national system of protected areas with the emphasis on its network of wetland Reserves.	Ministry of Natural Resources and Environmental Protection	Alexey Artushevsky Project Manager, tel.: +375 17 2265954 e-mail: artushevsky@bk.ru www.polesie-wetlands.by	GEF-UNDP	Total USD 2,191,500
Restoring Peatlands and applying Concepts for Sustainable Management in Belarus – Climate Change Mitigation with Economic and Biodiversity Benefits BMU-No.:II.C53	Belarus	12/2009-07/2011	To rewet over 14,000 hectares of degraded peatland at seven sites in Belarus. Restored peatland can mitigate climate change, create economic benefits and conserve biodiversity. The project will create and test the essential components for the long-term rewetting of degraded peat lands, enhancing their role as areas where Greenhouse Gas (GHG) emissions reductions on a substantial scale can be achieved, and facilitating the certification and sale of carbon credits on the voluntary market. One of the project activities is to assess and demonstrate sustainable vegetation management approaches. This activity is being implemented in current AW breeding site – Sporava mire.	The Royal Society for the Protection of Birds (RSPB), the Michael Succow Foundation (MSF) and Akhova Ptushak Batskaushchyn y (APB-BirdLife Belarus), and UNDP Belarus	Eugeniy Lobanov Project Manager, Makaenka str. 8-313 Minsk, Belarus tel: +375 17 2630613 mob: +375 29 6587445 fax: +375 17 2650811 lobanow@gmail.com www.restoringpeatlands.org	Federal Ministry for the Environment, Nature Conservation and Nuclear Safety of Germany through the KfW Entwicklungs bank	Total EUR 2,836,693 BY part EUR 989,470
Management Planning for Conservation of Fen Mire Biodiversity in Belarus 162/08/220	Belarus	04/1999-04/2002	To prepare management plans for the conservation of meso-trophic fen mire biodiversity at three key sites in Belarus	APB-BirdLife Belarus, Royal Society for the Protection of Birds (RSPB).
