Remarks
colony of 1200 breeding pairs
1 imm. flying
colony of 500 breeding pairs
flying W to roosting site
flying

flushed off by coincidence - must be many there!

6 colour ringd
counted from the Mirador with telescope

resting in Acacia tree

roosting site

1 pair sitting on his nest
(ringing site n°11)

both imm.
photo
imm. third winter
up to 5 per day melanistic male (1 melanistic, different from 30/01) with 1 melanistic male 1 imm. third winter and 1 adult
subad.
flying in the evening to the rest site

very strong, very light adult female very strong, very light adult female
caught
including immatures adult female caught adult male caught
16 birds caught during the stay heard, 1 male singing for 5 minutes heard
heard
juvenile
displaying

dark morph

imm. second winter

ad.

colony of 100 breeding pairs

minimum 2 pairs with chicks

1 nest with 1 chick and 1 egg
inside the mirador
in the morning on a electric
pylone; 1 eats a prey

inside the tunnel of an
Hamerkop nest
singing during the day

flock on the N end of the
island N of Mirador President

colonie of about 100 nests
(some birds flying to nests)

caught

caught

with one Hoopoe epops with one Hoopoe senegalensis

internuptial dress
female or internuptial male
female or internuptial male
internuptial dress
1 ad with 5 youngs
AH, OK, ZP

male in breeding dress; the
pair builds a nest
