In connection with the military aggression of the Russian Federation against Ukraine, we have initiated and supported the work of a large volunteer hub aimed at providing the Armed Forces, territorial defense and civilians in need of assistance in wartime.

From the first days of the military conflict, volunteers of the NGO "Volunteers of Fortune" provide food, medicine and ammunition to Ukrainian defenders, organize humanitarian landings for civilians.

This letter of the NGO "VOLUNTEERS OF FORTUNE" expresses admiration and gratitude to your organization «Ogólnopolskie Towarzystwo Ochrony Ptaków (OTOP)», which in a difficult period for Ukraine provides humanitarian assistance to the volunteer movement to provide servicemen of the Armed Forces with various necessary means.

Hoping for further cooperation for the benefit of Ukraine and its people,

Head of the
NGO "VOLUNTEERS OF FORTUNE"
